# SHOULD I RECYCLE MY WORKWEAR & PPE?

---

**RECYCLE YOUR  
WORKWEAR**

**What can I put in here?**

- End of life or redundant uniforms and PPE.

**What's excluded?**

- Footwear, safety glasses, gloves.
- Soiled garments - no wet oil/grease, paint, or bacteria.
- Wet garments also impact the recycling process so please dry first.

 **Cleanline Tasman** [cleanlinetasman.co.nz](https://www.cleanlinetasman.co.nz)

Textile waste contributes over 180,000 tonnes per year to landfills in NZ. Let's do our bit together to redirect your PPE and give it a second life.

To date, over 10,000,000 textiles items have been saved from entering landfills across Australia and New Zealand.

**Are you ready to join the club?**

# Introducing our Recycling Program

How does it work? (We've made it easy for you...)

1

Purchase your preferred box.

2

We deliver it with your next order, branded for easy recognition.

3

Deposit your end-of-life PPE in the box.

4

Once the box is full, tape it closed, contact our team for a return label, then book the courier to collect it.

5

The garments arrive at the recycling facility.

6

You get an impact statement reporting your positive contribution.

**Hey presto, all done!**

# What can I put in there?

- End of life or redundant uniforms and PPE.
- Hard hats & helmets – these need to be stripped down to the raw shell.
- Workwear needs to be recycled separately from helmets and hard hats.

## What's excluded?

- Footwear, safety glasses, gloves
- Soiled garments - no wet oil/grease, paint, or bacteria
- Wet garments also impact the recycling process so please dry first

# What does it cost?

Choose from the following recycling boxes:

**Order Code: GRBSM**

## **SMALL WORKWEAR BOX**

**Price:** \$60 (Freight included)

## **LARGE WORKWEAR BOX**

**Price:** \$99 (Freight included)

**What could I fit?: Suggested qtys:**

80 Polos or 60 shirts or 40 trousers or 15-20 overalls

**Order Code: HHRB**

## **LARGE HELMET/HARD HAT BOX**

**Price:** \$99 (Freight included)

**What could I fit?:** Shelled Hard hats/helmets only (20)

# What else can I do to positively contribute?

## Start of life:

The best approach to sustainability encompasses both start-of-life and end-of-life. Start of life refers to the fabric composition and resources consumed during manufacturing.

End of life considers the repurposing and recycling of the product. Work with your account manager to create your sustainable PPE range, composed of either natural or recycled fabrics, using sustainable manufacturing methods, to ensure you're off to a good start.

## Take it Full Circle:

Talk to your account manager for an idea on what products are manufactured from your waste.

Imaging using printed signage, wall panels, acoustic panelling, packaging, insulation, mats, modular furniture, furniture blankets, animal beds... made from your old PPE and uniforms!
